

# Constipation Pharmaceutical and Healthcare Pipeline Review H2

*Global Constipation Drugs and Companies Pipeline Review H2 2017*

PUNE, INDIA, March 16, 2017  
/EINPresswire.com/ -- [Constipation - Pipeline Review, H1 2017](#)

## Summary

Constipation refers to the infrequent or difficult passing of stool.

Constipation occurs when bowel movements become difficult or less frequent. Symptoms of constipation include swollen abdomen or

abdominal pain, pain and vomiting. The predisposing factors include eating disorders, irritable bowel syndrome, and hypothyroidism, overuse of laxatives (stool softeners) which, over time, weaken the bowel muscles, stress, inadequate water intake and inadequate fiber in the diet. Treatment includes use of laxatives and proper lifestyle.

## Report Highlights

This report provides comprehensive information on the therapeutics under development for Constipation (Gastrointestinal), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Constipation (Gastrointestinal) pipeline guide also reviews of key players involved in therapeutic development for Constipation and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies /Universities /Institutes, the molecules developed by Companies in Pre-Registration, Phase III, Phase II, Phase I, Preclinical and Discovery stages are 3, 7, 8, 2, 3 and 1 respectively. Similarly, the Universities portfolio in

Preclinical and Discovery stages comprises 1 and 1 molecules, respectively.

Constipation (Gastrointestinal) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

#### Scope

- The pipeline guide provides a snapshot of the global therapeutic landscape of Constipation (Gastrointestinal).
- The pipeline guide reviews pipeline therapeutics for Constipation (Gastrointestinal) by companies and universities/research institutes based on information derived from company and industry-specific sources.
- The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.
- The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.
- The pipeline guide reviews key companies involved in Constipation (Gastrointestinal) therapeutics and enlists all their major and minor projects.
- The pipeline guide evaluates Constipation (Gastrointestinal) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.
- The pipeline guide encapsulates all the dormant and discontinued pipeline projects.
- The pipeline guide reviews latest news related to pipeline therapeutics for Constipation (Gastrointestinal)

#### Reasons to buy

- Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.
- Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.
- Find and recognize significant and varied types of therapeutics under development for Constipation (Gastrointestinal).
- Classify potential new clients or partners in the target demographic.
- Develop tactical initiatives by understanding the focus areas of leading companies.
- Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.
- Formulate corrective measures for pipeline projects by understanding Constipation (Gastrointestinal) pipeline depth and focus of Indication therapeutics.
- Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.
- Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

- Table of Content: Key Points
- List of Tables
- List of Figures
- Introduction
- Constipation - Overview
- Constipation - Therapeutics Development
- Pipeline Overview
- Pipeline by Companies
- Pipeline by Universities/Institutes
- Products under Development by Companies
- Products under Development by Universities/Institutes
- Constipation - Therapeutics Assessment
- Assessment by Target
- Assessment by Mechanism of Action
- Assessment by Route of Administration
- Assessment by Molecule Type
- Constipation - Companies Involved in Therapeutics Development
- Albireo Pharma Inc
- Ardelyx Inc
- Assembly Biosciences Inc
- Astellas Pharma Inc
- Braintree Laboratories Inc
- CJ HealthCare Corp
- Dong-A Socio Holdings Co Ltd
- EA Pharma Co Ltd
- Ironwood Pharmaceuticals Inc
- Lipid Pharmaceuticals ehf
- Motus Therapeutics Inc
- NGM Biopharmaceuticals Inc
- RaQualia Pharma Inc
- Sanwa Kagaku Kenkyusho Co Ltd
