Lisa Germano, one of the Amazon buyers says, "I was very excited to get these new kitchen shears as I have an old pair that I use every day and they are starting to rust. To my surprise, the quality of this shears is amazing! They're really solid and sturdy. Much more so than my beloved old pair. These shears are easy to disassemble so you can give them a good washing. I hand wash mine but I suppose you could put them in the dishwasher too".
