

# Global Liquid Biopsy Market is Growing at CAGR of 21.6% and Expected to Reach USD 450 Billion by 2022

*Liquid Biopsy Market Analysis and Forecast by Therapeutic Area (Breast Cancer), Application (Device Development) and End Users (Research Institutes) – 2022*

“ We enable our customers to unravel the complexity.”

Market Research Future

PUNE, MAHARASHTRA, INDIA, March 20, 2017 /EINPresswire.com/ -- Market Overview:

A Liquid Biopsy, also known as Fluid Biopsy is the Sampling and Analysis of Non-Solid Biological Tissue, Primarily Blood. Like traditional biopsy this type of technique is mainly used as a

Diagnostic and monitoring tool for diseases such as Cancer, with the added benefit of being largely non-invasive.

Major Key Players-Myriad Genetics, F. Hoffmann-La Roche Ltd, QIAGEN, Biocept Inc., Trovagene, Inc, Genomic Health, RainDance Technologies, Inc, Bio-Rad Laboratories, Inc., Janssen Global Services, LLC”

*Market Research Future*

With their unique quality of simplifying the Market Study Reports, “Market Research Future” presents a Brilliant study Report on the “Global [Liquid Biopsy Market](#)” Empowering you to browse through the full Market Analysis, Opportunities, Price, Growth, Trends and the market forecast up to the year 2022

Global Liquid Biopsy Market Report has been segmented

on the basis of Therapeutic Area which comprises of Bladder cancer, Lung cancer, Brain cancer, Melanoma, Breast cancer, Non-Hodgkin lymphoma and others. On the basis of application the market is segmented into cancer Drug Development, Device Development, detection of Genetic Alterations in Tumors, cfDNA and others. On the basis of end user, market is segmented into Pharmaceutical Companies, Hospital/Clinics, Reference Laboratories, Research Institutes and others.

Globally the market for Liquid Biopsy is expected to grow at a substantial rate during the period 2016 to 2022. Applications for Liquid Biopsy are expected to Witness Significant market

development over the coming decade. Brain Cancer holds the largest share of the market.

Key Players for Liquid Biopsy Market:

Some of the Key Players in this Market are: Myriad Genetics, F. Hoffmann-La Roche Ltd, QIAGEN, Biocept Inc., Trovogene, Inc, Genomic Health, RainDance Technologies, Inc, Bio-Rad Laboratories, Inc., Janssen Global Services, LLC, and others.

The Intended Audience - Global Liquid Biopsy Market:

The Report is advantageous mainly to the following Entities

- Liquid biopsy market service providers
- Biotechnology Companies
- Research Institutes
- Research and Development (R&D) Companies
- Government Research Laboratories
- Contract Research Organizations
- Research and Consulting Companies
- Liquid Biopsy Product Manufacturers and Distributors
- Pharmaceutical Companies

Access the market data and market information presented through more than 50 market data tables and 25 figures spread over 85 numbers of pages of the project report "[Liquid biopsy Market –Global Forecast to 2022](#)"

Regional Analysis of Liquid biopsy market:

Globally North America is the largest market for liquid biopsy. Europe is the second-largest market. Furthermore Asia pacific market is expected to be the fastest growing market for liquid biopsy.

The Liquid Biopsy North American market and is expected to reach to a substantial amount of growth by 2022.

Europe holds the second largest market share of liquid biopsy market and is projected to reach to a comprehensive amount by the end of forecast period.

Globally, Asia-Pacific is the fastest growing region and expected to grow at a substantial rate of amount during the forecast period.

Key Utility Factors of the Report - Global Liquid Biopsy Market:

- Provides detailed analysis of the market structure along with forecast for the next 7 years of the various segments and sub-segments of the Liquid Biopsy Market
- Offers insights about factors affecting the market growth
- Enables to analyze the market based on various factors- Price Analysis, Supply Chain Analysis, Porters Five Force Analysis etc.
- Provides historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- Americas, Europe, Asia-Pacific, and Middle East & Africa.
- Offers country level analysis of the market with respect to the current market size and future prospective
- Offers country level analysis of the market for segments by therapeutic area, by application, by end user and its sub-segments.
- Provides overview of key players and their strategic profiling in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- Enables to track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the global liquid biopsy market.

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
