

Dynamic® Sports Development LLC introduces the first OTC true Orthotic Performance Insole via our Kickstarter Campaign.

Question- Do you suffer from foot pain, arch pain, Plantar fasciitis, or even Diabetic Neuropathy? Answer- Dynamic® Performance Insoles! "For every walk of life."

LAS VEGAS, NEVADA, UNITED STATES, March 20, 2017
/EINPresswire.com/ -- Dynamic® Sports Development LLC (<http://dynamicsportslc.com>) introduces the first over-the-counter Orthotic performance insole built to provide cushion and energy return, and relief from [Arch Pain](#), Foot pain, Plantar Fasciitis, and even relief from Diabetic Neuropathy. (See Kickstarter and Indiegogo links below!)

Dynamic® Performance [Insoles](#) are biomechanically engineered with a patent pending Carbon Fiber Reinforced Flex-Arch® support system allowing your arch to be supported and naturally flex at the same time. We target the specific physical needs of men, women, and children and biomechanically design all of our products against those needs. Now we launch Dynamic™ Performance Insoles.

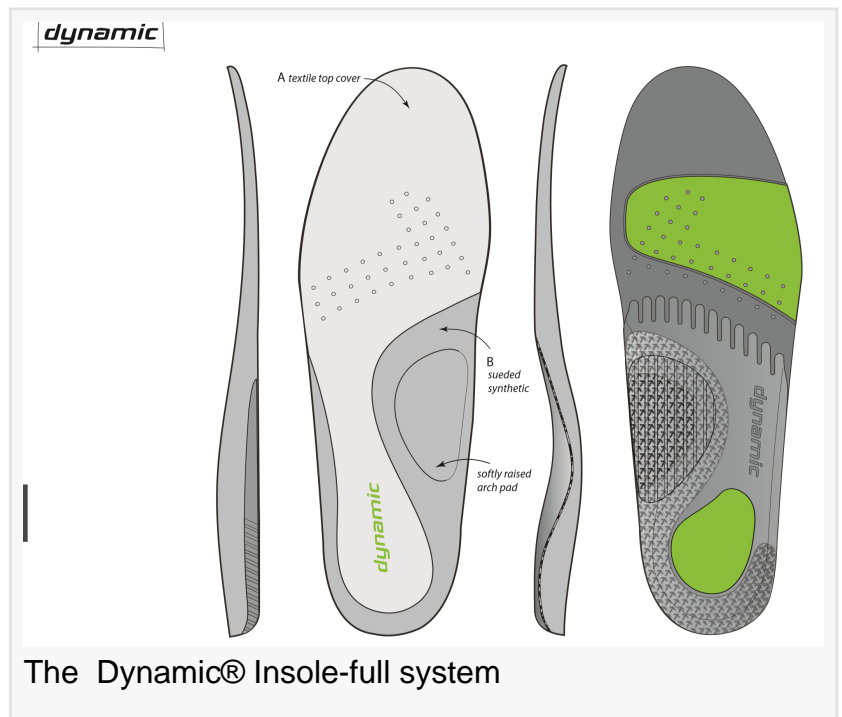

“

Dynamic® affordable insole outperforms any on the market today. The Dynamic® Insole offers a range of features in one insole-Shock Absorption, Energy Return, active Flex-Arch® support, gait control.”

Danny Simic, Founder

the hip, and into the lower back.

- FLEX-ARCH™ Technology- Carbon fiber mesh reinforced Flexible and Positive arch support.
- Full length cushion using high grade PU materials, pinpoint dual density PORON™ impact/shock cushioning and energy return.

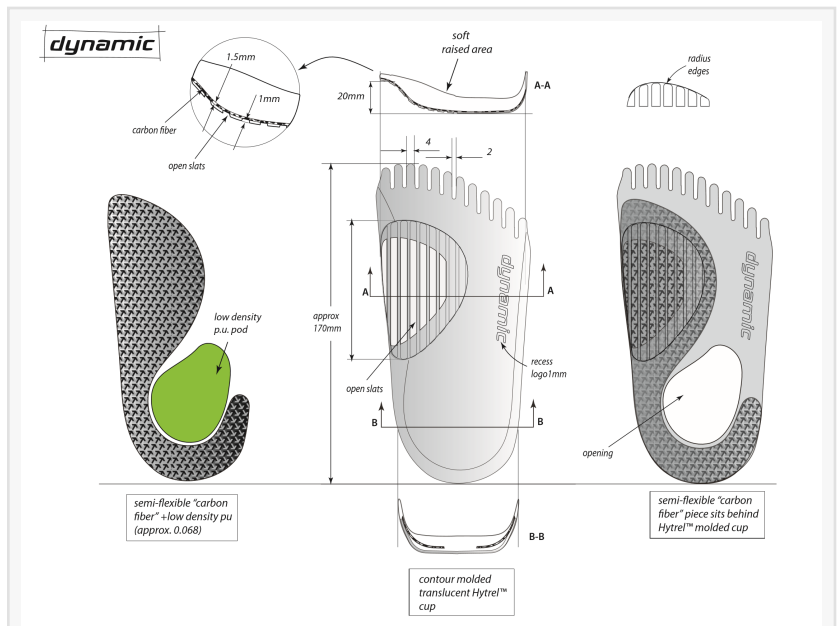

The Dynamic® Insole-full system

- Full injected arch/heel unit providing Gait and Motion control at every step.
- Coolmax™ for cooling
- Silver nitrate based AGion™ anti-odor/anti-microbial impregnated.
- All of the above performance features create and maintain an "In Balance" system for you, your children, and your bodies- the "Machines".
- ALL of these benefits in an insole that is at a price-point that is at or below the competitors' less technical products!

How good are these Dynamic® Performance Insoles- The inside story? We had the FDA (Food and Drug Administration) do a review of these insoles straight out of the box. Their response was that the preliminary review shows that the Dynamic® Insole would qualify as a Medical Device- right out of the box, over-the-counter! Few if any others can make that claim.

You can see all of the choices, and the technical and performance details, and support our campaigns at <https://www.kickstarter.com/projects/2008287220/q-foot-painarch-painplantar-fasciitis-a-dynamic-in> <https://www.indiegogo.com/project/preview/e52ca547>
