

Global Anti Epilepsy Drugs Market Is Expected To Grow At A CAGR Of 3.79 % by Forecast to 2022

Anti Epilepsy Drugs Market Information, Types of seizures (Generalized seizures and Partial-onset seizures) - Forecast to 2022

PUNE, MAHARASHTRA, INDIA, March 21, 2017 /EINPresswire.com/ -- Market Highlights:

Anti Epilepsy Drugs are used for the treatment of epilepsy which is a group of neurological disorders characterized by seizures manifesting as brief, involuntary episodes of vigorous body movements with or without loss of consciousness which affects about 24 million people. The present market of anti-epilepsy drugs is valued at USD 3.7 billion in 2015. The projected growth is USD 4.8 billion in 2022 representing a CAGR of 3.79%.

The Anti Epilepsy Drug Market is characterised by flat growth rate due to lack of novel acting anti-epileptic drugs. Thus, the market is full of drugs having similar mechanism of action and similar side effects. Moreover a large segment of patients do not respond well to these drugs. The anti-epilepsy drug market will favour companies with development pipeline of novel acting drug class. The market is fragmented and has a number of generics with a large number of companies.

Pfizer, Inc., Johnson & Johnson, UCB Pharma Ltd., Abbott Laboratories, GlaxoSmithKline plc, Novartis International AG, Sanofi S.A., Shire Pharmaceuticals Limited and Cephalon Inc”
Market Research Future

Test the market data and market information presented through more than 60 market data tables and figures spread over 80 numbers of pages of the project report. Avail the in-depth table of content (TOC) & market synopsis on “Global

Anti Epilepsy Drug Market Research Report - Forecast to 2022”.

Major Key Players:

- Pfizer, Inc.
- Johnson & Johnson
- UCB Pharma Ltd.
- Abbott Laboratories
- GlaxoSmithKline plc

- Novartis International AG
- Sanofi S.A.
- Shire Pharmaceuticals Limited
- Cephalon Inc.

Regional Analysis:

Depending on geographic region, anti-epilepsy drugs market is segmented into four key regions: Americas, Europe, Asia Pacific, and Middle East & Africa. Globally Americas is the largest market for anti-epilepsy drugs as there is rapid development in technology and has willingness to adopt innovative products for emergency care and chronic & acute diseases are some of the key factors projected to driving the growth of anti-epilepsy drugs market in this region. Europe is the second-largest market for anti-epilepsy drugs. Asia pacific region is expected to be fastest growing region in anti-epilepsy drugs market.

Thus the market of anti-epilepsy drugs in developed countries will be flat until the advent of novel anti-epileptic drug. Developing regions will consistently increase the share for second and third generation drugs.

Segmentation:

[Global anti-epilepsy drugs market](#) has been segmented on the basis of types of seizures (generalized seizures and partial-onset seizures) and by generation (first, second and third).

This report includes a study of strategies, of major market players. It includes the product portfolios, developments of leading major players such as: Pfizer, Inc., Johnson & Johnson, UCB Pharma Ltd., Abbott Laboratories, GlaxoSmithKline plc, Novartis International AG, Sanofi S.A., Shire Pharmaceuticals Limited and Cephalon Inc.

This research report has provided the insights, on various levels of analysis such as industry analysis, market share analysis leading market players and their profiles. This report also helps in studying the target segments by providing views on emerging & high-growth segments and market conclusion.

Study Objectives Global Anti Epilepsy Drugs Market:

- To provide detailed analysis of the market structure along with forecast for the next 7 years of the various segments and sub-segments of the global anti-epilepsy drugs market
- To provide insights about factors affecting the market growth
- To analyze the market based on various factors- price analysis, supply chain analysis, porters five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- Americas, Europe, Asia-Pacific, and Middle East & Africa.
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segments by type of seizures (seizures (generalized seizures and partial-onset seizures) and by generation (first, second and third)

Intended Audience:

- Global anti-epilepsy drugs manufacturers
- Global anti-epilepsy drugs suppliers
- Research and development Laboratories

- Market Research and Consulting Service Providers

The report for Global Anti Epilepsy Drugs Market of Market Research Future comprises extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market.

Table Of Contents

- 1 Introduction
 - 1.1 Definition
 - 1.2 Scope Of Study
 - 1.3 Research Objective
 - 1.4 Assumptions & Limitations
 - 1.5 Market Structure
- 2 Research Methodology
 - 2.1 Research Process
 - 2.2 Primary Research
 - 2.3 Secondary Research
- 3 Market Dynamics
 - 3.1 Drivers
 - 3.2 Restraints
 - 3.3 Opportunities
 - 3.4 Challenges
 - 3.5 Macroeconomic Indicators
- 4 Market Factor Analysis
 - 4.1 Porter's Five Forces Model
 - 4.1.1 Bargaining Power Of Suppliers
 - 4.1.2 Bargaining Power Of Customer
 - 4.1.3 Intensity Of Competitor's
 - 4.1.4 Threat Of New Entrants
- 5 Global Anti-Epilepsy Drugs Market, By Types Of Seizures
 - 5.1 Introduction
 - 5.1.1 Generalized Seizures
 - 5.1.2 Partial-Onset Seizures
 - 5.1.3 Others
