

Global Scar Removal Treatment Market is expected to reach USD 15 Billion by 2022

Scar Removal Treatment Market is growing continuously and expected to reach USD 15 Billion by the end of 2022, by treatment type, by application, by end user

PUNE, MAHARASHTRA, INDIA, March 21, 2017 /EINPresswire.com/ -- Market Overview

The global market for scar removal treatment is growing continuously and expected to reach USD 15 Billion by the end of 2022. Scarring is the natural part of the healing process by which the wounds are repaired. Whenever there is significant damage to the deeper layer of the skin (Dermis) or tissue, it causes formation of scar. Scars are produced post injury which causes structural changes in the deeper layers of skin which alters the architecture of the normal skin. Scars are caused due to any injury, wound, burn, other trauma, such as surgery. There are few types of scars such as keloid scars, contracture scars, hypertrophic scars, acne scars among others. Depending on the wound that caused the damage to the skin, the different appearance and type of scar is formed. There has been growing trend of the adoption skin care treatments and products.

Key Players : Absolute MS (S) Pte Ltd., Asclepion Laser Technologies GmbH, Avita Medical, Biodermis, Cynosure Inc., Enaltus LLC., Merz Pharma, Revitol.com, Scarguard Labs, LLC, Suneva Medical"
