

# Introducing PillStashios line of edible pill and medication containers for dogs – Available in three delicious flavors.

HOPKINS, MINNESOTA, USA, March 21, 2017 /EINPresswire.com/ -- PillStashios were designed to lock in scent and taste while providing an easy way to hide medicines, vitamins and supplements so dogs willingly take them. The PillStashios' design is a hollow, edible container with a convenient snap-lid to lock in the desired medications.

“We enlisted the help of engineers who are experts in designing seals to create the perfect edible container,” stated Mike Smith, PillStashios founder. “With PillStashios, you won’t need to fumble with products that dry out and crumble or are hard to use. There’s also no longer a need to keep a jar of peanut butter just for Fido and clean up the floor after he leaves a mess everywhere. Simply Stash, Snap and Serve. It’s that easy!”

PillStashios come in three irresistible flavors including Apple Bacon, Blueberry Chicken and Cranberry Turkey, all inspired by nature and designed to be uniquely appealing to dogs. PillStashios are made from all natural ingredients and are grain-free, gluten-free and soy-free.

PillStashios come in two sizes, small and large, to easily hold industry standard capsule sizes for dogs. And with the snap-lid design, PillStashios easily holds liquid, powder or capsules, and will disguise those for easy consumption.
