

Milestone AV Technologies Highlights Three Major Brands at the Projector SuperStore

Milestone AV & Projector SuperStore team up to showcase the quality professional audio/video products behind Da-Lite Screen Co, Chief MFG Mounts, & Vaddio.

SCOTTSDALE, ARIZONA, USA, March 21, 2017 /EINPresswire.com/ --

Milestone AV Technologies, a primary provider of ground-breaking mounting and display products for different audio-visual technologies worldwide, is showcasing three reputable brands in this industry namely: [Chief MFG Mounts](#); [Da-Lite Screen Company](#); and, [Vaddio](#).

These reputable trademarks are sold through professional dealers like Project Superstore; regional dealers of home theaters; retail outlets for consumer electronic items; and, original equipment manufacturers (OEM).

These three brands under Milestone AV Technologies were created separately but guarantee a wide range of products individually and collectively. At present, it serves a large base of more than 6, 000 clients globally.

Milestone AV Technologies acquired Vaddio which manufactures PTZ or Pan-Tilt-Zoom cameras. This sophisticated device has the capability for remote zoom control and directions. PTZ controls may also be used for professional video cam equipment, specifically television production and broadcast studios; surveillance activities; video conferences; and distance learning. The high-resolution PTZ camera zooms digitally and pans into parts of the image without physical movements of the camera.

Scott Gill, chief executive officer of Milestone AV Technologies said, "The acquisition of Vaddio to our impressive portfolio of consumer and commercial audio-visual brands will enable the company to ensure added value to the company's merged merchant base."

Vaddio has the commitment to create inventive solutions designed to address AV requirements of clients that are seen in its PTZ camera equipment as well as control systems; tried and tested audio visual apparatus; and, unified communications and collaboration technology items. It boasts of leading warranties, one-year advanced replacement, and efficient technical support.

Milestone AV Technologies also takes pride in being the distributor of Chief MFG Mounts and its 35 years of established superiority in the audiovisual industry. Chief offers an assortment of television, monitor, and projector mounts; free-standing, in-cabinet, and wall-mounted racks; tablets (adjustable and ergonomic iPad solutions); and the interactive short-throw mount that makes use of e-Beam technology and transforms flat surfaces into interactive presentation apparatuses.

The third leading brand that Milestone AV Technologies highlights is Da-Lite Screen Company which

manufactures a variety of projector screens for personal or business needs. It is a certified dealer of projector screens like the Da-Lite Advantage Electrol Screen; the Da-Lite Cinema Contour Screen; the Da-Lite Da-Snap Screen Da-TeX; and the Da-Lite Tensioned Advantage Electrol Screen.

Da-Lite Screens has been distributing premium quality AV equipment for more than 100 years and can be relied upon to meet demands of any customer. The screen surfaces designed and manufactured by Da-Lite's team of expert chemists and optic technical specialists are surfaces proven to withstand all elements. Each surface is made to enhance and preserve pixel projections for absolute clarity, full contrast, brightness and vivid colors.
