

Global Ulcerative Colitis Market Expected to Grow at CAGR 7% During 2016 to 2022

Global Ulcerative Colitis Market Information by Type (Ulcerative Proctitis, Proctosigmoiditis), Medication (5-Aminosalicylates, Steroids) - Forecast to 2022

“ We enable our customers to unravel the complexity.”

Market Research Future

PUNE, MAHARASHTRA, INDIA, March 22, 2017 /EINPresswire.com/ -- Market Highlights

Global [Ulcerative Colitis Market](#) has been evaluated as growing market and expected that the market will reach high growth figures in the coming future. Ulcerative colitis is a type of inflammatory bowel disease (IBD) that usually affects the lower section of body such as sigmoid colon and the rectum. Belly pain or cramps, diarrhea and bleeding from the rectum are some of the common symptoms of the diseases. According to CDC, the worldwide incidence of ulcerative colitis is between 0.5 to 24.5 cases per 100,000 persons per year. The reappearance of the disease's symptoms is also high. According to Colitis Foundation of America, about 30% of the people on remission are expected to suffer from the disease flare-up in the future following the treatment and remission.

Major Key Players-Allergan, Inc., AbbVie Inc., Takeda Pharmaceutical Company Limited, and Bayer AG, UCB S.A., Perrigo Company plc, Pfizer Inc., Johnson & Johnson Services, Inc., Ferring B.V.”

Market Research Future

Major factors leading to the growth of the market includes increasing prevalence of ulcerative colitis, higher preference for symptomatic therapeutic, better treatment of inflammatory bowel diseases, arrival of enhanced drugs and healthier investments in R&D programs. Increasing patient pool with unmet needs, new drugs entering the market, increasing global incidence & prevalence rate, and increasing investments towards research in small molecules are some of the other factors leading the market growth. Blockbuster drugs losing patent protection and growing the propensity for generic drugs are turning out to be restraints for the market. The lack of curative therapy and personalized therapy and medication are big opportunities for the market.
