In-Mold Labels Market is expected to grow over the CAGR of around 5.2% during the period 2016 to 2022

PUNE, MAHARASHTRA, INDIA, March 22, 2017 /EINPresswire.com/ -- In-Mold Labels Market is projected from around USD 2.7 billion in 2015 to cross USD 4 billion in 2022, at a CAGR of approximately 5.2% in the forecasted period.

Market Highlights

In-mold labelling involves putting labels on products during the manufacturing process. The process is also known as automated packaging systems. A preprinted label is placed in a mould with the help of vacuum to give shape to the end product. This type of process eliminates the need for additional

beautification or decoration process. This labelling process is carried out by using technologies such as injection molding, blow molding and other thermoform IML processing.
