Major key Players include Organic Spices Inc., SOAP, Frontier Natural Products, Simply Organic”
Market Research Future

Increasing importance of spices for various flavors in foods and medicinal properties has resulted in higher demand for spices. On the other hand, rising awareness for food safety related to pesticide residues in spices and related health hazards has triggered higher demand for organic spices. Change in food trends and adoption of various international food forms encouraging spices consumption in raw form further encourages demand for organic spices.

Hence [organic spices market](#) is growing at CAGR of more than 4% from 2016 to 2022.

India being a major producer of spices boosts stronger potential for organic spices supply. Spice exports contribute to nation's gross income considerably in countries like China, India, Africa and the Middle East. Organic spices are generally sold at premium prices and also in greater demand which can further enhance export revenues in major spice producing countries.
