

Advanced Co2 Sensors 2017 Global Market Expected To Grow At CAGR 49.55% And Forecast To 2021

Wiseguyreports.Com Added New Market Research Report On -"Global Advanced Co2 Sensors Market 2017 Manufacturers Analysis And Growth Forecast To 2021".

PUNE, INDIA, March 23, 2017 /

EINPresswire.com/ -- [Global Advanced Co2 Sensors Market](#)

Advanced CO₂ sensors are used to monitor the intensity of CO₂ in any medium such as air or water. These are next-generation CO₂ sensors that can adjust automatically to changes in temperature, humidity, and altitude. In addition, they have a lower error rate than standard CO₂ sensors. Thus, advanced CO₂ sensors enable end-users in the industrial and building automation sectors to take critical decisions quickly by balancing indoor air quality and energy efficiency in the confined spaces.

The analysts forecast the global advanced Co2 sensors market to grow at a CAGR of 49.55% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global advanced Co2 sensors market for 2017-2021. To calculate the market size, the report considers the revenue generated by vendors developing these advanced sensors is calculated.

Get Sample Report @ <https://www.wiseguyreports.com/sample-request/1095050-global-advanced-co2-sensors-market-2017-2021>

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The Global Advanced Co2 Sensors Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Amphenol Advanced Sensors
- Digital Control Systems
- Honeywell International
- Johnson Controls

Other prominent vendors

- AirTest Technologies
- Balluff
- Banner Engineering
- Turck
- Pepperl+Fuchs
- SICK AG
- Siemens Industry
- SenseAir
- Vaisala
- Veris Industries

Market driver

- Increased demand for advanced CO₂ sensors in emerging markets.
- For a full, detailed list, view our report

Market challenge

- Complex functionality of advanced CO₂ sensors.
- For a full, detailed list, view our report

Market trend

- Increased institutional use of CO₂ sensors and self-check on smoke emission.
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?

- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents -Major Key Points

PART 01: Executive summary

PART 02: Scope of the report

Market overview

Market size calculation and segmentation

Top-vendor offerings

PART 03: Market research methodology

Research methodology

Economic indicators

PART 04: Introduction

Key market highlights

PART 05: Industry overview

Advanced CO₂, sensors market: Supply chain

Technology landscape

Changing scenario of the global advanced CO₂, sensor market

PART 06: Market landscape

Market overview

Market size and forecast

Five forces analysis

PART 07: Market segmentation by fitting

PART 08: Market segmentation by product

PART 09: Geographical segmentation

Advanced CO₂ sensors market in EMEA

Advanced CO₂ sensors market in Americas

Advanced CO₂ sensors market in APAC

PART 10: Market drivers

Vertical growth in the global construction market

Increased demand for location-specific advanced CO₂ sensors and better air pollution measurement systems

Increased demand for submersible CO₂ sensors

Increased demand for advanced CO₂ sensors in emerging markets

PART 11: Impact of drivers

PART 12: Market challenges

Complex functionality of advanced CO₂ sensors

High cost of advanced CO₂ sensors

Economic slowdown

PART 13: Impact of drivers and challenges

PART 14: Market trends

Rapid urbanization

Increased institutional use of CO₂ sensors and self-check on smoke emission

Increased concerns about global warming

Emergence of smart cities

PART 15: Vendor landscape

Competitive scenario

Key vendors

Other prominent vendors
