Market Research Analysis:

Construction adhesive and sealant market is estimated to show a growing trend in the forecasted period. Waterborne adhesives market size is being dominated the technology landscape. This technology is preferred over

other technology owing to low VoC emissions to control environmental toxicity. On product type basis, acrylic products witnessed most usage followed by silicone sealants consumption. Focus on vehicle weight reduction for better fuel performance and strong infrastructure development indicators will play a key role in demand development. The high demand for the adhesive and sealant across the infrastructure industry and the housing industry will increase the overall construction adhesive consumption.
