The Artificial Intelligence Market in the US Education Sector 2017-2021, has been prepared based

on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Cognii
- IBM
- Nuance Communications
- Quantum Adaptive Learning

Other prominent vendors

- ALEKS
- Blackboard
- DreamBox Learning
- Jenzabar
- Microsoft
- Pearson

Market driver

- Growing collaboration among vendors and institutions.
- For a full, detailed list, view our report

Market challenge

- Steering cognition developments.
- For a full, detailed list, view our report

Market trend

- Artificial intelligence services through mobile devices.
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents -Major Key Points

PART 01: Executive summary

PART 02: Scope of the report

Market overview

Top-vendor offerings

PART 03: Market research methodology

Research methodology

Economic indicators

PART 04: Introduction

Key market highlights

PART 05: Market overview

Market size and forecast

Five forces analysis

PART 06: Market segmentation by end-user

Artificial intelligence market in US education sector by end-user

Artificial intelligence market in US higher education sector

Artificial intelligence market in US K-12 education sector

PART 07: Market segmentation by model

Artificial intelligence market in US education sector by model

Artificial intelligence market in US education sector by learner model

Artificial intelligence market in US education sector by pedagogical model

Artificial intelligence market in US education sector by domain model

PART 08: Market drivers

Rise in inclusion of intelligent adaptive learning (IAL)

Upsurge in ITS

Growing collaboration among vendors and institutions

Leveraging on available devices and infrastructure

PART 09: Impact of drivers

PART 10: Market challenges

Budget limitations
Steering cognition developments
Issues related to ITS
Sustainability issues

PART 11: Impact of drivers and challenges

PART 12: Market trends

Artificial intelligence-empowered educational games
Artificial intelligence services through mobile devices
Assists collaborative learning model
Facilitates better course designing activities

PART 13: Vendor landscape

Competitive scenario
Competitive benchmarking

PART 14: Key vendor analysis

Cognii
IBM
Quantum Adaptive Learning

PART 15: Other prominent vendors

ALEKS
Blackboard
DreamBox Learning
Jenzabar
Microsoft
Pearson
