PUNE, MAHARASHTRA, INDIA, March 27, 2017 /EINPresswire.com/ --

Market Highlights:

The North American market for instant noodles stood at 5,230 million servings in 2015, and is expected to reach at 5,369 million servings by 2022 at a CAGR of 0.6% from 2016-2022.

The major factors responsible for the growth of market are; increase in the demand for convenience food, increase in the working class population [North America Instant Noodles Market](#) lesser time for cooking and increase in the sedentary population.

The sale of instant noodles is not growing exponentially, as consumers are being aware of healthy lifestyle, the chemical used in preserving dried noodles. There is increased risk for metabolic syndrome because of high sodium, unhealthy saturated fat and high glycemic index scale. Although, food technicians have started to production of fortified instant noodle with enhanced nutritive values, and also reducing sodium content by 15%. Among the various instant noodles segments, fortified noodles will gain more demand in the
