

Tarantool Expands Operations To Silicon Valley

Leading enterprise database and data integration platform Tarantool expands operations from Asia and Europe to North America to focus on continued growth.

MOUNTAIN VIEW, CA, UNITED STATES, April 4, 2017 /EINPresswire.com/ -- MOUNTAIN VIEW, Calif.--(NEWSWIRE)--Tarantool announced today the opening of a new Mountain View, California headquarters for their database management system (DBMS).

"We are demonstrating our commitment to the U.S. and Canadian market by investing in staff and resources. Now businesses here can utilize solutions that are deployed at scale in Asia and Europe. Fueling this rapid growth is the fact that clients are seeing significant cost savings and performance gains. For example, one Tarantool server can replace 30 servers running a regular DBMS. Our goal is to make it a straightforward experience to get started," stated Dennis Anikin, General Manager of Tarantool.

The launch coincides with the general release of two products:

“

Our current and future growth is focused on a singular mission- delivering superior service and support from the free trial process to customer success.”

Tyler Norkus

costs, and simplified development.

"Businesses today are struggling to integrate their data sources and schemas, modernize applications, and power BI programs. We are here to solve these problems in their data center or cloud, and offer the option to connect sensors in the field or industrial site. Our current and future
