

Achieving Design and Construction Success with Prefabrication - Conference in Bangkok, Thailand May 3-5

USA Prefabrication Expert Amy Kulka-Marks will be keynote speaker at the 6th Annual Modular & Precast Construction Conference, May 3-5 in Bangkok Thailand

BANGKOK, THAILAND, April 10, 2017
/EINPresswire.com/ -- Amy Kulka-Marks Appearing in Bangkok, Thailand from Wed, May 3 until Fri, May 5 (USA Prefabrication Expert, Off-Site Program Manager and Singapore Government IPE Appointee)

At the upcoming 6th Annual Modular & Precast Construction [Conference](#), the keynote speaker will be President and Founder of [XSite](#) Modular, Amy Kulka-Marks, an industry thought leader who was appointed by the Government of Singapore to their International Panel of Experts on Construction Productivity.

Apart from her riveting and high-energy keynote presentation, Ms Kulka-Marks will be leading an unmissable full-day interactive workshop. The morning session will explore the off-site continuum, and impart key principles for developing off-site elements. The afternoon session will then cover Design for Manufacture and Assembly (DfMA), and analyze real world examples and strategies for designing for a manufactured world.

Emerging new information in the form of case studies, surveys and analyses of project budgets and schedules are all now revealing what off-site experts have been saying for years – the benefits are real, extremely impressive, and readily available.

The prefabrication and modular industry is fast growing, and today almost all construction projects contain some degree of off-site manufacture. Of particular interest is the current charge toward a holistic approach, led by Ms. Kulka-Marks and XSite Modular. Only by applying a comprehensive strategy, are the full benefits of prefabrication unleashed.

Amy Kulka-Marks is a highly-sought public speaker and presenter, and she has just finished at a prefabrication conference in Australia that broke all manner of attendance records. Along with the XSite team, she travels the world sharing her expertise on everything from optimizing prefabrication plants, construction projects worth billions of dollars, and facilitating company-wide changes in mindset.

"Most of these things I walk away with nothing. This was different," Paul Shanks, SteelCAD Drafting.

"Amy was FANTASTIC, I will be able to apply a lot from this session to my work," Brett Evans, Kids Under Cover.

"Amy is a dynamic and experienced professional who opened her playbook and treated us like her team. A very valuable experience," Charlie Hargroves, Curtin University.

The 6th Annual Modular and Precast Construction Conference will feature some of the industry's most highly regarded thought leaders showcasing projects, exploring new technology, sharing best practices, and addressing challenges in the industry.

Other key-note speakers include: Ronan Collings, Executive Director BIM Specialist, AECOM, Malaysia, also Prof. Lau Joo Ming, of Nanyang Technology University/former advisor HDB, Singapore, and Roger Krulak, CEO of Full Stack Modular, NYC.

Among the topics for discussion are a breakthrough in mindset with off-site manufacture, selecting the right construction project delivery method, and Design for Manufacturing and Assembly (DfMA) best practices. With Ms. Marks as the Chairperson, the emphasis will be on applicable real-world knowledge, relevant case studies, and a positive, solution-orientated environment.

Who will most benefit: Construction Managers, Architects & Engineers, Real Estate Developers & Building Owners, MEP Trades Professionals, Government Agencies, Building Materials Suppliers, Real Estate Consultants and Academia.

Where and When: Sofitel Bangkok, Sukhumvit, Thailand, Wednesday, May 3 to Friday, May 5.

Cost: Early bird, one day, two day and three day packages are available from \$995 to \$2295 USD.
