

# Military Drones Market - Worldwide Industry Key Players, Development Status, Type and Application, Forecast 2017 – 2022

*WiseGuyReports.com adds "Military Drones Market 2017 Global Analysis, Growth, Opportunities Research Report Forecasting to 2022" reports to its database.*

PUNE, INDIA, April 7, 2017 /EINPresswire.com/ -- [Military Drones Market:](#)

## Executive Summary

The 2016 study has 868 pages, 379 tables and figures. Worldwide military drone markets are poised to achieve significant growth with the use of cameras on stable flying armament platforms positioned as the best technology for knocking out terrorist enclaves. No one thinks this is the best way to fight the terrorists, but it is what is being used in the current environment.

[Military drones](#) are flying cameras and flying weapons that can be remotely controlled. Military drones are being used for lifting cameras above the ground so every person who wants it can use a camera to rise above the earth to look down from above can do military surveillance. Each drone can choose thousands of vantage points, extending military strategic visualization beyond what has previously been possible.

The military drones are able to achieve terrorist control tasks. They have been evolving air camera integration for surveillance systems capability. They are used for surveillance, reconnaissance and intelligence missions. They do 3D mapping and support ground troops. These are more energy efficient, last longer and have a significantly lower cost of operation than manned aircraft. Drone aircraft are sophisticated and flexible. They take off, fly and land autonomously. They enable engineers to push the envelope of normal flight. Reconnaissance drones can fly for days continuously. Remote, ground-based pilots can work in shifts.

Drones are set to make every industry more productive with better, more flexible visualization. Drone uses provide the prospect of trillions of dollars in economic growth. Drones connect seamlessly and securely to the Internet and to each other.

Military Drones Market

“Use of military drones represents a key milestone in provision of value to every military in every country. Customized camera configurations are used to take photos and videos with stunning accuracy and ideal representations of activity by an enemy. Digital controls further automate flying, making ease of use and flight stability a reality. New materials and new designs are bringing a transformation of military drones forward. With further innovation, continued growth of military drone markets is assured.”

The worldwide market for military drones at \$4.4 billion worldwide in 2015 going to \$6.8 billion by 2022. Multiple applications drive market growth, applications in surveillance and bombing terrorists. Lightweight military drones are used for visualization, attack drones are used in all manner of military maneuver, military drones are used for infrastructure surveillance, aerial mapping, and logistics delivery.

#### Companies Profiled:-

##### Market Leaders

General Atomics  
Northrop Grumman  
Lockheed Martin  
Honeywell  
Boeing / Insitu / L3  
AeroVironment  
China Aerospace  
BAE  
IAI  
Raytheon  
Draganflyer

##### Market Participants

AeroVironment  
Aeryon Labs  
ASN Technologies  
Aurora Flight  
Aviation Industry Corp (AVIC)  
BAE Systems  
Boeing  
Challis Inc.  
China Aerospace  
Cybaero  
Intel / Cyberhawk Innovations  
Denel Dynamics  
Drone Innovation Holding Company  
EHang  
Elbit Systems  
Enertis  
Finmeccanica  
Flirtey  
FT Sistemas  
General Atomics  
General Dynamics

Google  
GoPro  
Gryphon  
Honeywell  
Hubsan  
Integrated Dynamics  
Intel  
Israel Aerospace Industries  
Japan Drones  
Kratos  
L-3 Communications  
Laird / Cattron Group International  
Laser Motive  
Lockheed Martin  
Marcus UAV  
MMist  
Northrop Grumman  
Prox Dynamics  
Proxy Technologies  
Rocketsan  
RUAG Aerospace  
Safran Morpho  
SAIC  
Scaled Composites  
Schiebel  
Secom  
Textron  
TRNDlabs  
XAircraft  
Yuneec  
Wing Loong  
ZMP
