According to the US Census Bureau the population of Florida has nearly doubled since 1980. In 1980 the population of Florida was about 9,500,000. In 2017 Florida's population is about 20,500,000. Many of these new people have moved to Florida from New York, New Jersey, Massachusetts, Pennsylvania, Ohio, Illinois, and Michigan.

According to the Florida Mesothelioma Victims Center, "Most people who we hear about or talk to about mesothelioma or attorneys to help them were in most instances exposed to asbestos while serving in the US Navy or working in a factory, a power plant or as a skilled trades worker in the Northeast or the Midwest-not in

Florida. The reason we place such a high premium for people with mesothelioma having the nation's most skilled and experienced mesothelioma attorneys is because in most instances they will produce much better financial compensation results for you-or your loved one-as we would like to discuss at 800-714-0303."
