

# Turbocharger Industry and Worldwide 2022 Foresight Report

*The global market continuous turbocharger is expected to grow at a CAGR of about 7.8% during the forecast period, 2016 to 2022.*

PUNE, MAHARASHTRA, INDIA, April 11, 2017 /EINPresswire.com/ -- Market Highlights

Turbocharger is a type of forced induction system which increases an internal combustion engine's power output and efficiency by forcing air into the combustion chamber. Stringent environmental regulations, increasing

trend for opting better fuel economy and to enhance the engine performance will boost the demand for the turbocharger, as the turbocharger are more fuel efficient and improves the power of the automotive engine. Increasing demand for power generating automobile, need for fuel efficient engines will drive the passenger car segment of vehicle type and will have significant impact on the [turbocharger market](#). The global Turbocharger Market is expected to show a growth at CAGR of about 7.8% from 2016 to 2022.

Turbocharger Market by Region

## Key Players

- Honeywell International Inc.
- Borgwarner Inc.
- HI Corporation
- Mitsubishi Heavy Industries Ltd.
- Cummins Inc.
- Continental AG
- Eaton Corporation PLC
- Bosch Mahle Turbo Systems GmbH & Co. Kg
- Turbo Energy Private Limited
- Rotomaster International

Asia-Pacific is expected to dominate the turbocharger market in the forecast period and is followed by North America and Europe. Increased usage of vehicles, increasing need for power efficient passenger and commercial vehicles, high demand for fuel efficient engines in the economically emerging countries like China and India will drive the market of turbocharger in the Asia-Pacific region.

#### Target Audience

- Manufacturers of automotive turbochargers
- Raw material suppliers for automotive turbochargers
- Automotive OEMs
- Government and research organization
- Investment bankers and M&A Consultants

#### Scope of the report

This study provides an overview of the global continuous turbocharger industry, tracking market segments across the categorized four geographic regions. The report provides a five-year forecast for the market size in terms of value for North America, Europe, Asia-Pacific, and Rest of the world. The scope of the study segments the global continuous turbocharger market based on vehicle type, technology and fuel.

This research report has provides the insights, on various levels of analyses such industry analysis, market share analysis leading market players and their profiles. This report also helps in studying the target segments by providing views on emerging & high-growth segments and

market conclusion. Together the market data comprise and discuss with the basic assessments on the competitive scenarios & strategies, of the global Turbocharger market, including the high-growth regions, countries and their political, economic, and technological environments. Furthermore the project report also provides the views over the historical market values as well as, pricing and cost analysis of the same.
