Description

Wiseguyreports.Com Adds "Organic Food and Beverage -Market Demand, Growth, Opportunities and Analysis of Top Key Player Forecast To 2022" To Its Research Database

According to Statistics MRC, the global Organic Food and Beverage Market accounted for \$89.8 billion in 2015 and is expected to grow at a CAGR of 14.9% to reach \$238.4 billion by 2022. Growing consumer awareness, rising government support for organic agriculture, increasing interest of large retailers, health benefits and the promotion by regulatory and government authorities of several countries for organic food and beverages over the conventional foods are some of the major factors driving the market growth. However, high cost and lack of awareness on availability of products are some of the major restraints hampering the market. Moreover, growing usage of organic products provides a significant growth opportunity for the market.
