

2017 Cloud Enabling Technologies Market: Key Vendors Scenario and Competitive Landscape Analysis to 2021

The Global Cloud Enabling Technologies Market to grow at a CAGR of 8.84% during the period 2017-2021.

DALLAS, TEXAS, UNITED STATES, April 12, 2017
/EINPresswire.com/ -- About Cloud Enabling Technologies

Cloud computing is the use of computing resources that are delivered to customers with the help of Internet. The evolution of cloud computing has led to the emergence of cloud-enabling technologies such as virtualization, automated computing, and service-oriented architecture (SOA) technologies. Cloud computing enables enterprises to use these technologies without having a deep understanding or expertise of how they function. Virtualization refers to the technique of creating a virtual version of the physical infrastructure and is the most popular among cloud-enabling technologies. It reduces IT costs and improves the agility of the business.

After the emergence of cloud-enabling technologies, IT operations are being automated, and resources are being supplied on demand. SOA refers to a collection of services that can be integrated and offered as cloud-based solutions to enterprises. Advances in these technologies have led to the increased adoption of cloud-based services worldwide.

Technavio's analysts forecast the [Global Cloud Enabling Technologies Market](#) to grow at a CAGR of 8.84% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global cloud enabling technologies market for 2017-2021. To calculate the market size, the report considers the revenue generated from the adoption of virtualization, automation and management (A&M) and service-oriented architecture (SOA) solutions for cloud environments.

The market is divided into the following segments based on geography:

Americas

APAC

EMEA

Technavio's report, Global Cloud Enabling Technologies Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market

landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Request Sample PDF of this Report at: <http://www.orbisresearch.com/contacts/request-sample/256305>

Key vendors

1. BMC Software
2. CA Technologies
3. Citrix Systems
4. HPE
5. IBM
6. Microsoft
7. Oracle
8. Dell (VMware)

Other prominent vendors

Adaptive Computing, Brocade Communications Systems, Fujitsu, Huawei Technologies, Infosys, NEC Corporation, Puppet, Red Hat, SAP, ServiceNow, Tata Consultancy Services, Veeam Software, and Wipro.

Market driver

Decrease in the cost of cloud-enabling technology solutions.

For a full, detailed list, view our report

Market challenge

Vendor lock-in between traditional physical infrastructure and software solutions.

For a full, detailed list, view our report

Market trend

Growing implementation of software-defined networking (SDN).

Key questions answered in this report

What will the market size be in 2021 and what will the growth rate be?

What are the key market trends?

What is driving this market?

What are the challenges to market growth?

Who are the key vendors in this market space?

What are the market opportunities and threats faced by the key vendors?

What are the strengths and weaknesses of the key vendors?

Major Points Covered in Report:

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction
PART 05: Market landscape
PART 06: Five forces analysis
PART 07: Market segmentation by end-user
PART 08: Geographical segmentation
PART 09: Decision framework
PART 10: Drivers and challenges
PART 11: Market trends
PART 12: Vendor landscape
PART 13: Key vendor profiles

About Us:

Orbis Research (orbisresearch.com) is a single point aid for all your market research requirements. We have vast database of reports from the leading publishers and authors across the globe. We specialize in delivering customized reports as per the requirements of our clients. We have complete information about our publishers and hence are sure about the accuracy of the industries and verticals of their specialization. This helps our clients to map their needs and we produce the perfect required market research study for our clients.
