

Touchless Sensing Market Trends and 2027 Foresight Research Report

Global Touchless Sensing Market Information, by Sensor (Proximity, Infrared), by Technology (Touch Less Bio-Metric, Touch-Less Sanitary Equipment)

PUNE, MAHARASHTRA, INDIA, April 12, 2017 /EINPresswire.com/ -- [Touchless Sensing](#) is an innovative method which allows users to interact with the devices thereby performing certain tasks without having any physical contact. Touchless sensing has emerged as a very helpful method in the IT industry and apart from the IT industry, it has various applications in various industries. Hygiene factor and technological advancement are some key drivers for this market.

The prominent players in the market of touchless technology are-

- Eyesight Technologies Ltd. (Israel)
- Microsoft Corporation (U.S.)
- Qualcomm Inc. (U.S.)
- Microchip Technology Inc. (U.S.)
- Intel (U.S.)
- Elliptic Labs Inc., (Norway)
- CogniVue Corporation, (Canada)
- InvenSense (U.S.)
- Crossmatch (U.S.)
- XXP Semiconductors (Netherlands)

Study Objective of [Touchless Sensing Market](#)

- To provide detailed analysis of the market structure along with forecast of the various segments and sub-segments of the [Global Touchless Sensing Market](#)
- To provide insights about factors affecting the market growth
- To analyze the Touchless Sensing market based on various factors- price analysis, supply chain analysis, Porter's five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
- To provide country level analysis of the market with respect to the current market size and

future prospective

- To provide country level analysis of the market for segment by Sensor, by Technology, by applications vertical and sub-segments.
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Touchless Sensing Market

Regional Analysis Magnesium Sulphate Market - Asia-Pacific region covers of more than 60% to 65% of the world's population and is anticipated to increase in coming years, due to which the country would be facing issues of food sufficiency in the coming time. This would directly resulted in increasing and generating the need of food production. Use of magnesium sulphate in agriculture sector has proven to be an effective way to increase food productivity.

The magnesium sulfate worldwide is most extreme requested in APAC nations, because of land fragmentation, people/ farmers are left with little land property. The needs to get greatest yield from the accessible area assets has produced and will promote create the need of magnesium sulfate utilization in farms. Followed by this, North America and European region holds the second and third position in terms of value and volume.

Industry News

- In June 2016, NXP Semiconductors expanded the NFC portfolio for various applications.
- In July, 2014 InvenSense Inc. acquired Movea which is touchless and motion sensing developer.

The reports also covers brief analysis of Geographical Region includes:

Americas

- North America
- US
- Canada

Europe

- Western Europe
- Germany
- France
- Italy
- Spain
- U.K
- Rest of Western Europe
- Eastern Europe

Asia- Pacific

- Asia
- China
- India

- Japan
 - South Korea
 - Rest of Asia
- Pacific
The Middle East & Africa
