

Industry Controls and Factory Automation Market: Information, Figures and Analytical Insights 2022

The global market Industry Controls and Factory Automation is expected to grow at a CAGR of about 4.7% during the forecast period, 2016 to 2022

PUNE, MAHARASHTRA, INDIA, April 12, 2017

/EINPresswire.com/ -- Market Highlights

Industrial controls and factory automations are the advanced technology to control the equipment and machines in the industries.

The emergence of the information technology and adoption of the automation technologies has revolutionized the manufacturing sectors.

The automation reduces the human intervention, so the human error are reduced

which is causing various industrial unit to

adopt the automation systems. Robotics are

mostly used in the factory automation and

industry control as it leads to advantages in

controlling, better precision, reducing

assembly time, reduction in labor costs, and

reduction in the risk of exposure to production hazards. This is the factors driving the industry

control and factory automation market. The global Industry Controls and Factory Automation

Market is expected to show a growth at CAGR of about 4.6% from 2016 to 2021.

North America is the largest markets for industry control and factory automation market. Major players are focusing the Asian Market due to increase in industrial growth in the region. For increasing the overall revenue major players are targeting emerging countries like China and India. Therefore, Asia-Pacific region is expected to contribute significantly to the industry controls and factory automation market.

Market Research Report

Scope of the report

This study provides an overview of the global electric steering industry, tracking market segments across the categorized four geographic regions. The report provides a five-year forecast for the market size in terms of value for North America, Europe, Asia-Pacific, and Rest of the world. The scope of the study segments the global Industry controls and factory automation based on technology, component, and end user.

Key Players

- ABB Ltd.
- Siemens AG
- Emerson Electric Company
- Mitsubishi Electric Corporation
- Schneider Electric Se
- General Electric Company
- Omron Corporation
- Rockwell Automation, Inc.
- Yokogawa Electric Corporation
- Nextnine Ltd.

Target Audience

- oProcess Automation and Instrumentation Manufacturers
- oSystem Integrators
- oGovernment and Other Regulatory Bodies
- oInvestment bankers and M&A Consultants

The report for Global Industry controls and factory automation Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.
