

Huge Savings in Stock Clearance Sale

To Celebrate Easter, Travelsafer are clearing their stocks of digital tire pressure gauges at ridiculous prices.

LOS ANGELES, CALIFORNIA, USA, April 15, 2017 /EINPresswire.com/ -- Happy Easter from Travelsafer. To make way for a new shipment we are offering crazy discounts on our existing stock of 100 PSI digital tire pressure gauges.

This is what one happy customer recently had to say about the Travelsafer digital tire gauge.

“This is an extremely easy to use [digital tire pressure gauge](#) by Travel Safer. My hubby is the one who has always taken care of everything that has anything to do with our vehicles and most of the time that includes putting gas in the car too. With that said, this is a first for both of us as far as having me do anything remotely related to car maintenance.

It was so easy for me to use this digital tire pressure gauge that I am sure anyone can successfully use it as well. I did not need my hubby's help but I did read over the instructions. There really was not much to the instructions so I was able to quickly read it and off I went to test out the pressure of my tires.”

James from Travelsafer added, “This digital tire pressure gauge is a must have tool to carry in the glove box of your car, truck or SUV, and small enough to carry in a back pack on your bicycle or motor bike. No more struggling with awkward gas station gauges to get accurate tire pressure anywhere, anytime day or night.”

“

This is an extremely easy to use digital tire pressure gauge”

Happy Customer

With easy push button start and automatic turn off to save battery life, this tire gauge is so easy to use even for grandma. Change between 4 available ranges, PSI, Bar, Kpa and kg/cm2 with a further push of the button.
