

Implantable Ports 2017 Global Market Expected to Grow at CAGR Of 3.51% and Forecast To 2021

Wiseguyreports.Com Publish New Market Research Report On-"Implantable Ports 2017 Global Market Expected to Grow at CAGR Of 3.51% and Forecast To 2021".

PUNE, INDIA, April 17, 2017 /EINPresswire.com/
--

[Implantable Ports Market](#) 2017

About Implantable Ports

Implantable ports are thin, soft plastic tubes with a rubber disc at the end. Implantable ports are also called as subcutaneous ports or portacaths. They are most commonly inserted in patients undergoing chemotherapy. These ports are used to administer drugs to individuals. The diameter of the port ranges from 2.5 cm to 4 cm. Based on the product type, implantable ports can be classified into two types: single-lumen and double-lumen ports. During the forecast period, the single-lumen implantable ports segment will continue to grow significantly as these ports are used in the majority of insertion procedures, whereas the double-lumen implantable ports segment is expected to grow at a high rate.

The analysts forecast the global implantable ports market to grow at a CAGR of 3.51% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global implantable ports market for 2017-2021. To calculate the market size, the report considers the revenue generated from the sales of implantable ports.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

[implantable-ports-market-2017-2021](#)

The report, Global Implantable Ports Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- AngioDynamics
- B. Braun Melsungen
- C.R. Bard
- Smiths Medical
- Teleflex

Other prominent vendors

- Cook Medical
- districlass médical
- Isomed
- Kimal
- Medical Components
- PaKuMed medical products
- pfm medical
- Silvermed
- Vygon

Market driver

- Increasing prevalence of chronic conditions which require implantable ports
- For a full, detailed list, view our report

Market challenge

- Presence of alternatives such as PIVCs and PICCs
- For a full, detailed list, view our report

Market trend

- Increasing demand for titanium based implantable ports
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Key market highlights

PART 05: Market landscape

- Market overview
- Five forces analysis

PART 06: Market segmentation by product type

- Single-lumen implantable ports
- Double-lumen implantable ports

PART 07: Market segmentation by end-user

PART 08: Geographical segmentation

- Implantable ports market in Americas
- Implantable ports market in EMEA
- Implantable ports market in APAC

PART 09: Decision framework

PART 10: Drivers and challenges

- Market drivers
- Impact of drivers on key customer segments
- Market challenges
- Impact of challenges on key customer segments

PART 11: Market trends

- Growing usage of power-injectable ports
- Increasing preference toward the use of disposable implantable ports
- Increasing demand for titanium-based implantable ports
- Presence of safety guidelines

PART 12: Vendor landscape

- Competitive scenario
- Key news
- M&A

PART 13: Key vendor analysis

- AngioDynamics
- B. Braun Melsungen
- C.R. Bard
- Smiths Medical
- Teleflex
