About Iron Castings

Cast iron is an alloy of iron and carbon; it is hard, brittle, and non-malleable. The concentration of carbon varies from 2% to 5%. The alloy has lower melting temperature and requires less refining when compared with steel, which has a typical carbon content of 0.5%. The less refining required allows for the production of components at a lower cost and without using specialized equipment. In addition, iron can be cast into more complex shapes as it shrinks less during solidification when compared with steel. The major properties of cast iron include high compressive strength, good casting features, and excellent machinability.

The analysts forecast the global iron castings market to grow at a CAGR of 6.99% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global iron castings market for 2017-2021. To calculate the market size, the report considers the revenue generated from the sales of iron castings.

The market is divided into the following segments based on geography:

- APAC

- Europe
- North America
- ROW

The report, Global Iron Castings Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Brakes India Limited
- Dandong Foundry
- Grede Holdings
- Grupo Industrial Saltillo
- Hinduja Foundries
- Hitachi Metals
- OSCO Industries

Other prominent vendors

- ACAST
- Benton Foundry
- Brantingham Manufacturing
- Decatur Foundry
- Hua Dong Teksid
- Qingdao Tian Hua Yi He Foundry Factory

Market driver

- Mechanization of agriculture, opening new avenues for growth
- For a full, detailed list, view our report

Market challenge

- Increasing competition from aluminum
- For a full, detailed list, view our report

Market trend

- Surge in consumption of cast iron products in renewable energy segment

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Key market highlights
- Overview

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by product type

- Overview
- Global gray iron castings market
- Global ductile iron castings market
- Global malleable iron castings market

PART 07: Market segmentation by end-user

- Overview
- Global iron castings market in automobile segment
- Global iron castings market in industrial machinery segment
- Global iron castings market in infrastructure and construction machines
- Global iron castings market in power segment
- Global iron castings market in other end-user segments

PART 08: Market segmentation by geography

- Overview
- Iron castings market in APAC
- Iron castings market in North America
- Iron castings market in Europe
- Iron castings market in ROW

PART 09: Decision framework

PART 10: Drivers and challenges

- Market drivers
- Impact of drivers on key customer segments
- Market challenges
- Impact of challenges on key regions

PART 11: Market trends

- Modernization of foundry industry
- Surge in consumption of cast iron products in renewable energy segment
- Advances in technology
