Industry News:

- Capgemini has formed a strategic partnership with SAP SE in September 2016 to provide assistance to manufacturing industries in managing their digital transformation and thus to increase the profitability of the industries.
- Zaloni has launched big data lifecycle management solution for data lake services in September 2016. This big data management would provide user-friendly interface for defining custom rules and leveraging Hadoop's cost-effective storage system.

Commenting on the report, an analyst from Market Research Future (MRFR)'s team said: "Growing advancement in service excellence and quality in data delivery services by organizations is the key trend for this market. With increasing investment of market players in data storage and warehouses, especially the American and APAC countries are taking many initiatives to implement the Data Lakes effectively in their region "

Target Audience:

- Research Organizations
- OEM's
- Media
- Investment firms
- Corporate
- Resellers and Distributors
- Government Agencies

The report for Data Lakes Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance.

Taste the market data and market information presented through more than 50 market data tables and figures spread in 110 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Data Lakes Market Research Report- Global Forecast to 2022](#)"

Utility Aspects of the Report:

- Provides detailed analysis of the market structure along with forecast of the various segments and sub-segments of the Data Lakes Market
- Offers insights about factors affecting the market growth.
- Enables to analyze the Data Lakes Market based porter's five force analysis etc.
- Provides historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
- Offers country level analysis of the market with respect to the current market size and future prospective
- Provides country level analysis of the market for segment by components, service, application, delivery mode, industries and sub-segments
- Offers strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- Enables to track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments

in the Global Data Lakes Market

Market Segmentation

Segmentation by Structure

- Data Sources
- Hadoop Distribution
- Data Ingestion
- Data Query
- Data Stores

Segmentation by Services

- Data Engineering
- Managed Services
- Support & Maintenance
- Data Discovery & Visualization

Segmentation by Application

- Healthcare & life science
- Industrial
- Banking & finance
- Government
- Media

The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.
