

ACHECK21® ANNOUNCES MOBILE ACH AND CHECK DEPOSIT SERVICES SDK

ACheck21 Open Standard API includes a mobile SDK for Apple and Android.

ST CHARLES, MISSOURI, UNITED STATES, April 25, 2017

/EINPresswire.com/ -- ACheck21® is announcing its open standard [API](#) which includes both [mobile](#) payments and mobile deposit of ACH and Check. The ACheck21 Mobile SDK comes with cross

platform functionality for iOS and Android. ACheck21 has partnered with A2iA, an award-winning developer of software for the worldwide data capture, document processing, and payment systems markets. The service will offer a white label, REST-based API and SDK. As with all ACheck21 FinTech CloudSM services, Av21MobileSM service will incorporate both ACH and Check along with Verification and ancillary services such as ID capture in a single work flow and user friendly interface. The service will allow licensees to modify the user interface to reflect their business needs.

“This service offers FinTech companies and mobile application developers everything they need now and in the future”, said Sam Ackley, CEO of DCS Holdings Group, LLC the owner of ACheck21. “It offers a complete service that will support all ACH entry classes, Mobile Deposit, Fraud Detection, Verification and with A2iA technology developers can incorporate document capture”, according to Ackley.

As with all ACheck21 services our open standard API and Mobile SDK are readily accessible and include a free development sandbox account. The service allows users to integrated direct to the bank of your choice or DCS offers third party processing for both ACH and [Checks](#). There are no upfront license fees. For more information please contact sales@dcsdeposits.com and refer to “Av21Mobile” in the subject line.

###

ACheck21 is an intelligent private financial cloud that combines ACH (Automatic Clearing House) and Check21 (Remote Deposit Capture) along with ancillary services and features into a single hosted work flow. ACH21SM Payment Gateway offers a fully integrated management console that puts you in the driver’s seat.

ACheck21 software is designed to improve efficiency and reduce complexity for any user, organization or business processing ACH, Checks or verifying account information from point of sale, the internet, mobile devices, laptops, desktops or scanners.

A2iA, Artificial Intelligence and Image Analysis (www.a2ia.com), is an award-winning developer of handwriting recognition, text extraction and document classification software. With simple, easy to use and intuitive toolkits, A2iA delivers add-on features that speed automation, simplify customer

engagement and quickly capture all types of data from documents – whether captured by a desktop scanner or mobile device. By enhancing solutions from systems integrators and independent software vendors, A2iA allows complex and cursive data from all types of documents to become part of a structured database, making it searchable and reportable, with the same level of flexibility as printed or digital data. For more information about A2iA, visit www.a2ia.com or call +1 917-237-0390 within the Americas, or +33 1 44 42 00 80 within EMEA or Asia.
