

# Senior military personnel and leading experts discuss the acceleration of the use of maritime robotic systems

*With UAV's playing an important role within the industry, the two- day event will provide an array of presentations exploring a variety of unmanned systems*

LONDON, LONDON, UNITED KINGDOM, April 19, 2017 /EINPresswire.com/ -- SMI's [Unmanned Maritime Systems](#) Technology 2017, taking place next month in London on the 24th and 25th May 2017, will bring together leading experts and senior personnel including Program Managers and Heads of Surface/Underwater Warfare.

With UAVs playing an important role within the industry, the two- day event will provide an array of presentations exploring a variety of unmanned systems including UUV's, USVs and UAVs. Royal Navy, NATO Allied Maritime Command and German Navy will be speaking on this subject, presentations include;

- Unmanned Warrior: Leading and winning through technological innovation - Rear Admiral Keith Blount, Assistant Chief of the Naval Staff Aviation and Carriers, Rear Admiral Fleet Air Arm, Royal Navy
- Forward thinking to integrate UAVs into future NATO maritime operations - Commodore Andreas Vettos, Commander Maritime Air Directorate, NATO MARCOM
- Unmanned aerial systems on German corvette class 130 - Commander Lutz Reichel, Future Development of Naval Air Systems, German Navy

Joining them in the speaker line-up includes Admiral Sir George Zambellas, Former First Sea Lord and Chief of Naval Staff from Royal Navy UK and unmanned system experts from Polish Navy, FFI, ONR Global, NATO CMRE, DSTL, FMV, TNO and more.
