

Global Inventory Tags Market Expected to Grow at CAGR 4% During 2016 to 2022

Global Inventory Tags Market Analysis by Technology (Barcodes, RFID & QR Codes), Materials (Metal), End-User (Industrial) and Region - Forecast to 2022

PUNE, MAHARASHTRA, INDIA, April 21, 2017 /EINPresswire.com/ -- Market research future published a Half Cooked Research Report (HCRR) on Global [Inventory Tags Market](#). The Global Inventory Tags Market is Expected to Grow Over the CAGR of around 4% during the period 2016 to 2022

Market Overview:

Tags attached to inventory items to provide the required information about the finished products, raw materials, and other stored elements are called inventory tags. Rising trend of online shopping and growing e-commerce companies, are boosting the demand of inventory tags. Additionally, continuously growing demand from end-use industries, is also the key driving factor of this market. Inventory tags offer several benefits such as cost efficient and precise tracking of inventory goods, control over inventory flow, which also boosting the demand of these tags. However, lack of awareness of inventory tags technologies may hamper the growth of global inventory tags market. Global Inventory Tags Market is expected to grow at CAGR of 4% during the forecast period.

Major Key Players are Avery Dennison Corporation (U.S), Tyco International Plc. (Ireland), 3M Company (U.S), Brady Corporation (U.S), Zebra Technologies Corporation (U.S)"

Competitive Analysis-

Major Key Players in Inventory Tags Market are:

We recognize the key players in the Global Inventory Tags Market as Avery Dennison Corporation (U.S), Tyco International Plc. (Ireland), 3M Company (U.S), Brady Corporation (U.S), Zebra Technologies Corporation (U.S), Alien Technology Inc. (U.S), Hewlett-Packard Company (U.S), Checkpoint Systems Inc (U.S), Smartrac N.V. (The Netherlands), and Cenvéo Inc. (U.S)

Access the market data and market information presented through more than 25 market data tables and 25 figures spread over 140 numbers of pages of the project report “Global Inventory Tags Market Research Report - Forecast to 2022”

Market Research Analysis

On the basis of material, global inventory tags market is segmented into metal, plastic, and paper. Out of them, metal tags account for the largest share of material segment in global inventory tags market. Metal tags are more durable inventory tags and can withstand extreme conditions. These tags have a wide range of applications in industrial and commercial sector. The most common metals used to manufacture metal tags are aluminum, stainless steel and brass. Europe is the largest market for the inventory tags mainly due to advancements in technologies and strong government support. The inventory tags market in Asia-Pacific region is expected to grow at the fastest pace during the forecast period.

Scope of the Report

This study provides an overview of the global inventory tags market, tracking three market segments across four geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America, Europe, Asia Pacific, and Rest of the World. The report also provides a forecast, focusing on the market opportunities for the next five years for each region. The scope of the study segments the Global Inventory tags market as technology, materials, and end-user.

By Technology

- Barcodes
- RFID
- QR Codes

By Materials

- Metal
- Plastic
- Paper

By End-User

- Industrial
- Retail
- Logistics
- Others

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
