## Description

Wiseguyreports.Com Adds "Wireless Health -Market Demand, Growth, Opportunities and Analysis of Top Key Player Forecast To 2022" To Its Research Database

According to Statistics MRC, the Global Wireless Health market is expected to grow from \$37.26 billion in 2015 to reach \$151.74 billion by 2022 with a CAGR of 22.2%. Growing technological advancements in wireless communication, increasing usage of internet and bandwidth are some of the major factors propelling the market growth. In addition, rapid changes in health care services and mainstreaming of cloud computing are other factors driving the market growth. On the other hand, privacy issues of data, expensive wearable devices, and dearth of skilled IT professionals in healthcare are the factors hindering the market growth.

Among all devices smartphone segment is experiencing highest CAGR during the forecast period. North America accounted for the largest share in global wireless health market followed by Europe. Asia Pacific is expected to witness huge growth rate during forecast period. It is attributed to growing geriatric population, growing adoption of healthcare IT solutions, and increasing medical tourism industry in emerging countries such as China, Japan and India.
