

Marc J Bern & Partners LLP Files Lawsuits For A Hundred Individuals Against Merck Alleging Zostavax Vaccine is Defective

*MARC J. BERN & PARTNERS LLP FILES LAWSUITS FOR A HUNDRED INDIVIDUALS AGAINST MERCK ALLEGING SHINGLES/ZOSTAVAX VACCINE IS DEFECTIVE**

NEW YORK, NEW YORK, UNITED STATES , April 21, 2017 /EINPresswire.com/ -- MARC J. BERN & PARTNERS LLP FILES LAWSUITS FOR A HUNDRED INDIVIDUALS AGAINST MERCK ALLEGING SHINGLES/ZOSTAVAX VACCINE IS DEFECTIVE*

MARC J. BERN & PARTNERS LLP, the attorneys who last month filed their first complaint in Philadelphia Court of Common Pleas on behalf of Jorja Bently, today have filed complaints for another 100 plaintiffs against Merck regarding its Shingles vaccine, Zostavax. The assertions are wide ranging and include plaintiffs claiming to have suffered various side effects which include contracting shingles, chickenpox, high blood pressure, intense neuropathic pain, eye injuries, headaches, dizziness amongst others.

It is alleged by Marc J. Bern & Partners LLP that “Merck knew and had reason to know that its Zostavax vaccine was inherently defective and unreasonably dangerous as designed” that “Merck downplayed the serious and dangerous side effects of its product to encourage sales of the product; consequently, Merck placed its profits above its customers’ safety.” According to founding Partner Marc J Bern, the firm is currently representing nearly 5000 claimants and has thousands more filings to follow. “We have been investigating this drug for quite some time. We steadfastly believe in the merits of this litigation. This vaccination is at best 50 percent effective. Either it is not effective or it causes shingles or a host of other side effects. What is most troubling is that Merck had a better alternative on hand when this product was released.” says Bern.
