[Global Pure Play Software Testing Services Market](#)

Description

The global technology industry has witnessed various acquisitions, cross-border mergers, and the rapid adoption of social media platforms. It has also seen the creation of large volumes of data and rapid advances in cloud and mobile technologies. Another major progress was the Internet of Things (IoT), which is gradually changing the ways how organizations interact with their employees, partners, and customers. The change in business needs compels industries to increasingly rely on digital transformation, mobility, and smart data analytics software. These services have become key investment areas.
