PUNE, INDIA, April 24, 2017 /EINPresswire.com/ -- Summary

Global [Carotenoids](#) market is accounted for \$1.23 billion in 2015 and is expected to reach \$1.81 billion by 2022 growing at a CAGR of 5.6%. Increasing demand for natural colorants, physical condition benefits, rising end-user applications and management promotions are the major factors driving the market growth. The factors that are restraining the market are stringent government policies, lack of awareness in emerging countries and over usage of carotenoids. Lack of awareness about cancer symptoms and adulteration are the major challenges faced by the market.

Asia Pacific market is expected to dominate the trend during the forecast period on account of increasing utilization of animal feed and food supplement. The technological advancements, economic rise, industrial growth, and low production costs in several countries, such as Japan, China, and India are also projected to fuel the Asia Pacific region. Based on application the food and beverages industry is expected to witness significant growth in the upcoming period due to increase in demand for functional and fortified foods.
