

Swissbit: High-end flash memory solutions with outstanding US-customer support

Swissbit to showcase its SATA-Gen3 products with the endurance- and retention-optimized durabit™ & everbit™ ranges as well as SD memory cards at EDS Summit.

PORT CHESTER, USA, April 25, 2017 /EINPresswire.com/ -- Swissbit will showcase its high-end memory and storage products for industrial and NetCom applications at the EDS Summit in Las Vegas (The Mirage, Suite C33), taking place from May 16-19, 2017.

The leading specialist for flash memory solutions will highlight its SATA-Gen3 products with the endurance- and retention-optimized durabit™ & everbit™ ranges - such as X-60m2, X-60, X-60P. Furthermore, the company will present innovative [SD memory cards with page based FTL and pSLC mode](#) with its S-46 product range. At this key industry gathering, Swissbit will inform existing and new distributors about latest technology and application trends. The success of the flash memory specialist in the US market is not only due to its high-quality products, but also its excellent consulting expertise and outstanding support for developers and electronics companies - right through to customized memory and storage solutions.

About Swissbit AG

Swissbit is the largest independent manufacturer of embedded memory and flash storage solutions in Europe. The company was founded in 2001 through a management buy-out of Siemens AG, and has offices in Switzerland, Germany, US, Japan and Taiwan. Its main manufacturing plant in Berlin produces industrial strength flash memory products and memory cards with dedicated features for demanding applications. The Swissbit flash range includes SSDs with SATA interface as mSATA, Slim SATA, CFast™, M.2 and 2.5", CompactFlash, USB flash drives, SD and micro SD memory cards. Swissbit offers products with long-term availability, high reliability and durability and custom optimization for demanding applications in the industrial, automotive and NetCom sectors. With its secure storage solutions, Swissbit addresses the increasing security requirements demanded by industrial, government, defense, medical, NetCom, machine-to-machine communication and finance industry segments. All Swissbit products meet the highest quality standards and the RoHS and REACH directives.
