

E-cigarette in US 2017 Global Market Expected to Grow at CAGR 33% and Forecast to 2020

WiseGuyReports.Com Publish a New Market Research Report On – “E-cigarette in US 2017 Market Expected to Grow at CAGR 33% and Forecast to 2020”.

PUNE, INDIA, April 25, 2017 /EINPresswire.com/

--

The market research analyst predicts [the e-cigarettes market in the US](#) to grow at a CAGR of around 33% during the forecast period.

The increased desire among consumers to quit smoking tobacco is the primary driver for the growth of this market. For instance, according to the US government, approximately 480,000 people die in the country every year due to active smoking. E-cigarettes are considered a healthier alternative to tobacco smoking, and, therefore, are becoming popular among end-users.

The low cost of e-cigarettes is also expected to contribute to the growth of the market during the forecast period. E-cigarettes are cheaper than traditional cigarettes due to the lack of legitimate taxation on their sale. The wholesale price of a disposable e-cigarette is between USD 2.5 and USD 4.0, whereas rechargeable e-cigarette costs between USD 6 and USD 15.
