

Aspen Institute now offering regenerative STEM Cell therapy

Aspen Institute has added Umbilical cord blood STEM Cells to its treatment regimen focused on anti-aging and orthopedic regenerative medicine.

ASPEN, CO, USA, April 25, 2017 /EINPresswire.com/ -- Aspen Institute for [Anti-aging](#) & Regenerative

We have seen remarkable results when treating patients for injuries they have dealt with for years. The regenerative capabilities of these STEM cells are nothing short of life changing. ”

Dr. Gershon

Medicine with offices in Aspen and Denver devote much of their time treating aging athletes with state of the art Bio-identical Hormone replacement and specially patients with pain or degenerative diseases. With over 35 years experience in Sports medicine the Aspen based practice utilizes cutting-edge technologies to help patients reduce pain and restore function with state of the art therapies like [Stem cell therapy](#).

The Institute recently announced its latest breakthrough using Umbilical cord blood stem cells isolated in and FDA approved process from Bioburst technologies. These vibrant cells produce profound healing in arthritic joints and degenerative

conditions such as those found in the knees, ankles, hips, shoulders and wrists. Most recently the Institute has been treating degenerative systemic diseases with great success such as Rheumatoid arthritis, Scleroderma, COPD or Emphysema and Diabetes. The Aspen clinic is the only practice in Colorado treating Erectile dysfunction with a unique combination of testosterone and stem cells. Where one simple injection can provide long-lasting benefits.

These remarkable treatments can repair tissue in the body that has been damaged from age related disease or degeneration. They do this by pinpointing the impaired areas, removing the swelling with powerful anti-inflammatory properties and healing them by regenerating new cells and tissue. The Institute also uses your bodies own stem cells derived from your own adipose tissue which is rich in regenerative stem cells. These cells are particularly effective in treating such conditions as degenerative arthritis, degenerative cartilage and ligaments, bursitis and tendonitis. According to Aspen Institute for Anti-aging & Regenerative Medicine’s founder Dr. Julian Gershon patients can experience a significant decrease in pain and an improvement in range of motion within weeks of one treatment. “Our patients see results that are magical” said [Dr. Gershon](#). It’s our hope that this truly amazing therapy will eliminate the need for drugs and painful surgery.

Dr. Gershon is stem cell Fellowship trained in Stem cell therapy. As well he is Triple Board certified by the American Osteopathic association in Sports Medicine and Family Medicine, and in Anti-aging Medicine by the American Academy of Anti-aging & Regenerative Medicine. Dr. Gershon in a physician peer to peer trainer for Bioburst and mentors physicians in regenerative medicine techniques from all over the world.

Dr. Gershon has been performing cutting edge stem cell treatments for over 5 years in Texas and Colorado.
