

Triad Financial Services Announces Formation of Manufactured Home Risk Purchasing Group For Manufactured Home Dealers

Manufactured Home Dealers needed a Risk Purchasing Group that understood their industry.

JACKSONVILLE, FLORIDA, UNITED STATES, April 25, 2017 /EINPresswire.com/ -- [Triad](#) Financial Services, Inc (Triad) has been providing services to the manufactured home industry for over 50 years. During this time, Triad has incorporated various services to better assist those in the manufactured home industry.

In 2016, Triad created a Risk Purchasing Group (RPG) in response to the increasing demand for affordable liability insurance for manufactured home retail dealers. In addition to insurance savings, the program will provide periodic loss prevention and risk management tips and information. In addition to the general liability program, Triad's insurance division provides competitively priced inventory open lot coverage, commercial property coverage, commercial auto insurance, coverage for contractors equipment, as well as access to a national homeowners program for manufactured housing.

Recent changes in the manufactured home general liability insurance markets have undergone changes to where it may be difficult to find affordable coverage for manufactured homes dealers. Triad wants to ensure that dealerships across the country are aware of their Risk Purchasing Group and the benefits it provides to dealers. Members of Triad's RPG will not be charged a membership to join; however, a nominal servicing fee is applied to their general liability premium each year. Triad's RPG was formed to assist manufactured home dealers with various services that are specifically designed for their industry as well as the dealership's unique needs.
