

Americas Packaged Water Treatment System Market Worth USD 3577.7 Million by 2022 at a CAGR of 4.62%

Americas Packaged Water Treatment System Market Report by Type (Extended Aeration, MBR), Application (Municipal, Industrial) and By Regions - Forecast to 2022

“We enable our customers to unravel the complexity.”

Market Research Future

PUNE, MAHARASHTRA, INDIA, April 26, 2017 /EINPresswire.com/ -- Market Highlights

The [Americas Packaged Water Treatment System Market](#) is expected to grow around 4.62% CAGR during the period 2016 to 2022. The packaged water treatment plants are factory-built

which can be easily transported to the site of the requirement. These are highly suitable for small to medium scale industries and for residential complexes as well. These are used to store sufficient water, which can be easily transported to the required site later. However, technologies such as membrane bioreactors and reverse osmosis are comparatively more expensive than extended aeration, but the ongoing technological advancement is expected to bring down the cost of the equipment.

“

Key Players in market are GE Water & Process Technologies (U.S.), RWL Water (U.S.), WesTech Engineering Inc. (U.S.), Smith & Loveless Inc. (U.S.), Napier-Reid Ltd. (Canada), Enviroquip (U.S.)”

Market Research Future

The Americas Packaged Water Treatment System Market is poised to grow at 4.62% CAGR and is estimated to reach

USD 3577.7 million by the end of forecast period.

Key Players

The key players of the Americas packaged water treatment system market are GE Water & Process Technologies (U.S.), RWL Water (U.S.), WesTech Engineering Inc. (U.S.), Smith & Loveless Inc. (U.S.), Napier-Reid Ltd. (Canada), Enviroquip (U.S.) and Corix Water System (Canada).

Market Research Analysis

Based on type, extended aeration segment is leading the market and it is projected to grow at 5.48% CAGR during the forecast period. As extended aeration is cost-effective, it is extensively used by majority of players operating in North & South America.

Based on application, Municipal leads the packaged water treatment system market with a share of 58.8% in 2015. Factors such as increasing urbanization & the compact size of the system is driving the market.

Based on region, North America region has accounted for the highest market share of 73.52%. Factors such as increasing awareness about environment safety is also driving the market. In addition, South American countries are witnessing continuous development in the manufacturing sector which is expected to drive the packaged water treatment system market. Furthermore, various initiatives undertaken by the government to improve the health standards is also expected to boost the market.

Scope of the Report

This study provides an overview of the Americas Packaged Water Treatment System market, tracking two market segments across two geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America and Latin America. The report also provides a forecast, focusing on the market opportunities for the next five years for each region. The scope of the study segments the Americas packaged water treatment system market by its type, application and regions.

By Type

- Extended Aeration
- MBR
- MBBR
- SBR
- Reverse Osmosis
- Others

By Application

- Municipal

- Industrial
- Others

By Region

- North America
- Latin America

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
