

# TurbineAero, Inc. Announces MRO Service Agreement with Spring Airlines Japan.

CHONBURI, THAILAND, April 26, 2017 /EINPresswire.com/ -- Chonburi, Thailand — 4/25/2017 —

TurbineAero is pleased to announce the signing of a multiyear services agreement for Auxiliary Power Units (APU) Maintenance, Repair and Overhaul (MRO) between TurbineAero and Spring Airlines Japan. TurbineAero will provide MRO services for the Honeywell GTCP131-9[B] for Spring Airlines fleet of Boeing 737-800 aircraft. The MRO services will be provided out of TurbineAero's Thailand facility in Chonburi, Thailand.

The APU MRO services agreement signed by TurbineAero and Spring Airlines Japan is a multiyear program that starts in 2017. TurbineAero will provide full APU MRO Services for Spring Airlines. "TurbineAero is excited to partner with Spring Airlines and providing Spring Airlines with world-class APU MRO services they demand," said TurbineAero's Vice President and General Manager of TurbineAero Repair – Thailand, Peter Gille. "TurbineAero is the most comprehensive and flexible APU MRO services provider in the world and partnering with Spring Airlines is a splendid example of our dedication to the customer and worldwide APU market."

"For Spring Airlines to provide low-cost flights to our customers, Spring Airlines must be able to rely on the flexibility, quality, and timeliness of our suppliers," said Mr. Hiroshi Ugai President, Spring Airlines Japan. "We selected TurbineAero as our APU MRO Services provider because they offer a wide variety of APU services and more importantly they provide Spring Airlines with the most options to allow us to run a seamless business."

Rob Higby, Chief Executive Officer of TurbineAero, said "We are honored to be partnered with Spring Airlines Japan as their APU MRO services partner and maintenance advisor. Our partnership with Spring Airlines Japan underscores our commitment to providing customers with the most competitive pricing and flexible APU MRO services programs available in the market."

About Spring Airlines Japan:

Spring Airlines Japan Co., Ltd. is a low-cost airline headquartered in Kozunomori, Narita, Japan. It is 33% owned by Spring Airlines, a Chinese low-cost carrier, with the remainder held by various Japanese investors. The airline began operations in August 2014.

About TurbineAero, Inc.

TurbineAero was created to become the most comprehensive, flexible, and customer-focused APU MRO Services company in the world. As the largest independent APU MRO globally, TurbineAero repairs, sells, leases, tests, and certifies APU and related parts accessories. TurbineAero currently has four locations, three business units are located near Phoenix, AZ and the fourth is just outside of Bangkok, Thailand.
