Description

Wiseguyreports.Com Adds “User and Entity Behavior Analytics -Market Demand, Growth, Opportunities and analysis of Top Key Player Forecast to 2021” To Its Research Database

According to Statistics MRC, the Global User and Entity Behavior Analytics Market is accounted for \$89.50 million in 2015 and is expected to reach \$1458.91 million by 2022 growing at a CAGR of 48.9% from 2015 to 2022. User centric approach is one of the significant opportunities for the market growth over the forecast period. Lack of trained security professionals, rising demand to avoid insider threats posed by users and real time analytics are some of the drivers which are helping the market to compete across the globe. However, lack of information regarding advanced insider threats will pose a challenge for quick hasty market growth.

By end user, Healthcare segment is expected to grow at a significant growth rate due to increasing consciousness among organizations regarding threats posed by insiders and many recent cases of high level cyber attacks. North America commanded the largest market share in user and entity behavior analytics market owing to improved usage of user and entity analytics solutions across varied industries in the region.
