

Middle East Africa Surgical Sutures Market is expected to grow at a CAGR of 5% by Forecast to 2022

Surgical sutures are used for enclosing body incisions to prevent infections thus healing the wound quickly.

PUNE, MAHARASHTRA, INDIA, April 28, 2017 /EINPresswire.com/ -- Market Highlights:

Surgical sutures are used for enclosing body incisions to prevent infections thus healing the wound quickly; these are referred as stitches in lay man terms. The market of Middle East and Africa surgical sutures has been growing at a moderate rate due to factors such as rising incidences of accidents which leads to greater use of sutures, growing popularity of cosmetic surgeries and development of advanced sutures such as film coated sutures. The market's constraints includes increasing preference for minimally invasive surgical procedures and the presence of alternative wound care products; these are key factors which are expected to restrain the growth of this market.

The current market highlights include the dominance of absorbable sutures over the non-absorbable. The absorbable segment accounts for the largest market share and is also a fast growing segment as compared to non-absorbable. The demand of synthetic sutures is growing faster as compared to natural sutures. The development of absorbable sutures based on synthetic materials such as polyglycolic acid, polylactic acid, polydioxanone, polyester etc. Middle East and Africa Surgical Sutures Market is driving the growth of the artificial segment. Future growth will be led by product development such as film coated sutures. Another attractive product development strategy includes development of single filament sutures as these have

Middle East and Africa Surgical Sutures Market:

The Middle East and Africa surgical sutures market has been evaluated as a growing market and it is expected that the market will grow at a moderate CAGR of 5 % in future. The growth will be primarily channeled by unmet medical needs, rising incomes of population along with growth for the need of surgeries in Africa. However, the growth of this market is hindered by some of the factors like presence of low quality surgical sutures due to poor regulatory framework in Africa.

The key players of this market are Ethicon Inc., B. Braun Melsungen AG, Dolphin Sutures, Synthecon, DemeTECH Corporation, and Medtronic plc. Internacional Farmaceutica, Sutures India Pvt. Ltd., and others.

Regional Analysis:

Depending on geographic region, surgical sutures market is further segmented into following countries such as UAE, Egypt, Saudi Arabia, Kuwait, Qatar and Oman. UAE being one of the largest market in ME&A is followed by Egypt country of the same region. However, the future market will be led by poorly developed parts of Africa due to large unmet needs and the growth of surgeries over there.
