

Dental Radiology Dental Imaging Devices Market Global Trends, Size, Shares, Segmentation, Analysis by Forecast 2021

Dental (Radiology & Imaging) Device Market Research Report, By Product (Radiology [PSP, Digital X-Ray, Sensor]) by Forecast 2021

PUNE, MAHARASHTRA, INDIA, April 28, 2017 /EINPresswire.com/ --
Market Highlights:

The dental radiology and dental imaging devices market is expected to cross USD 2,000 million mark in 2016 with the CAGR of approximately 10%. The market is majorly driven by the technological advancements in the dental equipment, high adoption of digital dental radiography and imaging systems, growth in aging population, and dental surgeries gaining impetus. However, high price of digital radiography systems, and lack of reimbursement in dental care expected to restrain the growth of this market.

[Dental Radiology Dental Imaging Devices Market](#) is majorly used for the diagnosis, and therapeutics of the oral health issues. In North American and major European countries uses the digitalized dental radiology and imaging equipment. Also, according the current trends there is high adoption of the digital dental instruments in these regions.
