Covington said RI International is operating the center under

a contract with Riverside University Health System.

Steve Steinberg, the director of RUHS Behavioral Health, said the center will help relieve pressure on local emergency departments that get overwhelmed by individuals brought in by law enforcement on involuntary psychiatric admissions known as a 5150.

“Our goal is to provide a positive alternative to requiring involuntarily holds in hospital emergency rooms,” Steinberg said. Through this mental health urgent care, we’re able to help de-escalate situations and help individuals move more quickly toward recovery.”
