allowed to grow into an epic new figure in American literature.”

And Sully's epic commences when he arrives in New York on what turns out to be the eve of the infamous New York Draft Riots. He witnesses them from start to finish and records in great detail all that he saw - from what led up to them, to the incredible and often horrible acts themselves, and the aftermath of those terrible days.

After the dust settles, Sully finds himself fully integrated into the New York culture with a lot of friends - most particularly, pub owners John and Mary McSorley who become instrumental in Sully's future

adventures. Sully works at the New York docks during the day, and as a cook, bartender, and entertainer at McSorley's in the evening. During this time: Sully befriends a fellow worker, Catherine McCarty and her young son Henry – who he was destined to meet up with again, years later in the West. By that time though, Henry McCarty had become known as Billy the Kid.

Together they invent the first portable kitchen, or "chuck wagon" as it was later to become known. John decides to fund Sully, helps him get set up, and sends him off on his Western adventures to meet and deal with Wyatt Earp, Jesse James and a host of others while finding himself in the middle of such events and places as Tombstone, Dodge City, the OK Corral, the Johnson County War, Northfield, Minnesota bank robbery and more, and still more.
