Transcatheter mitral valve repair and replacement methods are gaining major traction as the next major development in valve therapy; however, there are certain challenges that will need to be addressed, including complex technology design, delivery methods and identifying the most appropriate patient population to benefit from this technology. Further, advent of transcatheter mitral valve replacement devices is going to boost the global market in the forecast period. In the recent years, many start-up companies are dedicated in developing the optimal transcatheter mitral valve replacement technology, with major focus on the transapical delivery approach to further simplify the delivery method. Several medical device companies are now in competition to bring first-generation transcatheter mitral valves to market.

According to Azoth Analytics research report, "Global Transcatheter Mitral Valve Repair and Replacement (TMVR) Market - Analysis By Region, By Country: Opportunities and Forecast (2017-2022) – (By Region - North America, Europe, Asia Pacific, ROW; By Country - U.S., Canada, Germany, France, Australia, Singapore) and By Country (U.S., Canada, Germany, France, Australia, Singapore and Colombia): (2017-2022)" global market is projected to display a vigorous growth represented by a CAGR of 34.71% during 2017 – 2022, chiefly driven by increasing number of

patients with mitral regurgitation, rising geriatric population, growing awareness about minimally invasive techniques and increasing healthcare expenditure. The field of transcatheter mitral valve therapy has developed at much slower pace than projected since its clinical introduction majorly due to the complexity of valvular anatomy and the need for challenge imaging technology. Among the regions, Europe accounts for the largest regional share in the total TMVR market in 2016. However, Asia Pacific is predicted to advance at the highest rate, mainly driven by increase in healthcare expenditure coupled with growing penetration and awareness about technologically advanced heart valve therapies.

The report titled, "Global Transcatheter Mitral Valve Repair and Replacement Market: Analysis By Region (North America, Europe, Asia Pacific, Rest of the World) and By Country (U.S., Canada, Germany, France, Australia, Singapore and Colombia): (2017-2022)" has covered and analysed the potential of Global Transcatheter Mitral Valve Repair and Replacement Market and provides statistics and information on market size, shares and growth factors. The report intends to provide cutting-edge market intelligence and help decision makers take sound investment evaluation. Besides, the report also identifies and analyses the emerging trends along with major drivers, challenges and opportunities in the global transcatheter mitral valve repair and replacement market. Additionally, the report also highlights market entry strategies for various companies across the globe.

Scope of the Report

Global Market (Actual Period: 2012-2016, Forecast Period: 2017-2022)

Transcatheter Mitral Valve Repair and Replacement Market

Check for the discount: <http://www.orbisresearch.com/contacts/discount/275767>

Regional Markets – North America, Europe, APAC, RoW (Actual Period: 2012-2016, Forecast Period: 2017-2022)

Transcatheter Mitral Valve Repair and Replacement Market

Country Analysis - US, Canada, Germany, France, Australia, Singapore and Colombia (Actual Period: 2012-2016, Forecast Period: 2017-2022)

Transcatheter Mitral Valve Repair and Replacement Market

Other Report Highlights

Market Dynamics – Trends, Drivers, Challenges

SWOT Analysis

Competitive Landscape

- Product Benchmarking of Key Industry Players developing Transcatheter MV Repair Technology, By Type of MR

Policy and Regulatory Landscape

Company Analysis - Edwards Lifesciences Corporation, Medtronic Plc, Abbott Laboratories, Neovasc Inc., Cardiac Dimensions Inc.

Customization of the Report

The report could be customized according to the client's specific research requirements. No additional cost will be required to pay for limited additional research.

About Us:

Orbis Research (orbisresearch.com) is a single point aid for all your market research requirements. We have vast database of reports from the leading publishers and authors across the globe. We specialize in delivering customized reports as per the requirements of our clients. We have complete information about our publishers and hence are sure about the accuracy of the industries and verticals of their specialization. This helps our clients to map their needs and we produce the perfect required market research study for our clients.
