

Custom Service Hardware (CSH) Introduces New Line of Kitchen Cabinets

CSH has just introduced a new line of high quality RTA kitchen cabinets, available at a special introductory sale price through the end of May.

CEDARBURG, WISCONSIN, U.S.A., May 2, 2017 /EINPresswire.com/ -- Manufacturer and online retailer, Custom Service Hardware (CSH), has just introduced a new line of kitchen cabinets in a variety of appealing styles, materials and finishes, making it easy for homeowners to upgrade their kitchens incorporating a design that matches their home's overall style. As an introductory promotion, these cabinets are on sale, available at a discount, ranging from 15-20% depending on the model, until May 31, 2017.

The new line included in CSH's "[May Cabinet Deals](#)" include transitional designs, characterized by clean, simple lines, as well as more traditional designs. Both styles are available in white painted or wood-stained finishes.

CSH has been distributing Ready-To-Assemble (RTA) cabinets to homeowners and builders since the early 2000's with the goal of providing high quality products at affordable prices. Featuring all wood construction, the cabinets are built to look good and last for many years.

"We understand that the kitchen is the central hub of most homes which means it not only has to look warm and inviting as a place to hang out, it also has to function efficiently for the homeowners' lifestyle," said Timothy Stepanski, CSH Marketing Manager. "Behind our cabinets' elegant external design is a plethora of useful storage features that keep even the busiest of households organized," he continued.

CSH's line of cabinets includes popular user-friendly features such as Blum full extension soft-close undermount slides which make opening and closing the integrated drawers a quiet pleasure. Other features include attractive, purpose-built storage racks and specialized cabinets, normally found only in high end kitchen construction.

All of CSH's cabinets can be easily assembled with wood glue and some common hardware. In addition to the instructions that come with the units, additional assembly information and "How-To" videos can be found on cshardware.com. CSH's knowledgeable and experienced customer support specialists are also readily available by phone to answer any questions.

"For customers looking for RTA cabinets, CSH is the right place to start," said Stepanski. "Our cabinetry showcases superior materials, practical and attractive designs, and expert finishes - all with quick, easy assembly," he continued. "Our May Cabinet Deals represent great value—for example, a 10x10 kitchen with the discount will start less than \$2500—which is an amazing price point for the quality of our product," he concluded.

About CSH

Established in 1977 as a waterbed manufacturer, CSH transitioned to manufacturing and importing hardware for furniture and cabinet makers in the 1990's before entering into the cabinet distribution

business. Today, CSH supplies over 50,000 products to builders, contractors, and homeowners worldwide. With 100,000 square feet of warehouse space and 45 full-time employees, CSH has become a leader in the wholesale hardware industry.
