

Industrial Wireless 2017 Global Market Expected To Grow At CAGR 7.10% And Forecast To 2021

The analysts forecast the global industrial wireless market in process industries to grow at a CAGR of 7.10% during the period 2017-2021.

PUNE, INDIA, May 3, 2017 /EINPresswire.com/ --

[Global Industrial Wireless Market](#)

Description

Wireless solution is a set of systems, devices, and services implemented in an industrial facility to guarantee a continuous and consistent coverage and flow of operational data. In wireless technology, electromagnetic waves are deployed to transmit information in the form of signals using a communication channel.

Industrial communication protocols like

Ethernet, Fieldbus, and wireless technologies are widely deployed by both process and discrete industries to connect their sub-processes, systems, equipment, and automated technologies, and generate a seamless flow of operational data.

Covered in this report

The report covers the present scenario and the growth prospects of the global industrial wireless market in process industries for 2017-2021. To calculate the market size, the report presents a detailed picture of the market by way of study, synthesis, and summation of data from multiple sources.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The Global Industrial Wireless Market in Process Industries 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Belden
- Cisco
- Eaton
- Rockwell Automation
- Siemens

Other prominent vendors

- ABB
- Aruba (Part of HP)
- Beckhoff Automation
- Honeywell Process Solutions
- Huawei
- Schneider Electric
- Yokogawa

Market driver

- Reduction in installation and retrofit costs.
- For a full, detailed list, view our report

Market challenge

- Growing security concerns.
- For a full, detailed list, view our report

Market trend

- Adoption of wearable devices in process industries.
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?

- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents -Major Key Points

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research methodology

PART 04: Introduction

- Market outline

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by technology

- Global industrial wireless market in process industries by technology
- Global WLAN market in process industries
- Global WirelessHART market in process industries
- Global WiMAX market in process industries
- Global others market in process industries

PART 07: Market segmentation by end-user

- Global industrial wireless market in process industries by end-user
- Global industrial wireless market in oil and gas, and petrochemical industry
- Global industrial wireless market in power industry
- Global industrial wireless market in water and wastewater industry
- Global industrial wireless market in others

PART 08: Geographical segmentation

- Global industrial wireless market in process industries by geography
- Industrial wireless market in process industries in EMEA
- Industrial wireless market in process industries in APAC
- Industrial wireless market in process industries in Americas

PART 09: Decision framework

PART 10: Drivers and challenges

- Market drivers
- Market challenges

PART 11: Market trends

- Compatibility of Bluetooth 5 and IoT
- Adoption of wearable devices in process industries
- Evolution of cloud-based technologies

PART 12: Vendor landscape

- Competition review
- Key vendor analysis
- Belden
- Cisco
- Eaton
- Rockwell Automation
- Siemens
- Key takeaways
