

Leading CEE's Armed Forces Gather in 2 Weeks to Discuss Armoured Vehicles Effectiveness

Attendee list released featuring Czech Republic, Austria, Romania, Bulgarian, Slovenian, Lithuanian, Latvian, US Land Forces and more...

LONDON, LONDON, UNITED KINGDOM, May 3, 2017 /EINPresswire.com/ -- With just two weeks to go until [Future Armoured Vehicles Central & Eastern Europe 2017](#), SMi Group have released a preliminary list of attendees ahead of the industry meeting set to take place on 15th and 16th May in Prague, Czech Republic.

Within the Central and Eastern European region, the land forces environment continues to receive renewed attention, the likes of which have not been seen since the end of the Cold War. This has been reflected in large scale international exercises to boost readiness, as well as the individual efforts of NATO member states to enhance their respective capabilities, through procurement and training.

The constant spotlights on the region creates a need for a platform to facilitate discussion regarding tactics and technologies that will enhance future combat vehicle effectiveness in the region. Now in its 3rd year, Future Armoured Vehicles Central & Eastern Europe will bring together a truly exceptional speaker line up featuring over 25 thought provoking presentations from United States Army Europe as well as the Czech Republic, Austria, Romania, Bulgarian, Slovenian, Lithuanian and Latvian Land Forces.
